School Improvement Priorities 2026-27

Inclusion

Scaffolding

Success in independent learning

Students will be supported to become increasingly confident as independent learners through high expectations, excellent teaching and effective scaffolding

Success looks like:

All students experience success in independent learning

Greater confidence and resilience

Improved progress across all groups

Barriers

Removing barriers to success

We will identify and remove barriers that prevent students attending, participating and achieving, particularly for disadvantaged students

Success looks like:

Improved attendance

Increased participation in school life

Narrowing gaps

SEND

Great teaching for every learner

Every classroom will provide high-quality inclusive teaching, ensuring that students with SEND receive the right support at the right time

Sucess looks like:

High-quality adaptive teaching

Timely identification of need

Effective interventions
